COATING

Corrosion Protection on metal components to ensure that the metal components used in the pools last through the seasons. We put our metals through vigorous coating procedures. The superior process and coating we use make our pools the most reliable in the industry.

WARRANTY
15 years

WATER SAFETY

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.

The dimensions, weights, illustrations and other specifications are approximate.
The company reserves the right to modify and/or discontinue without notification any feature in any pool model. © Copyright 2014
