The Complete Pool Care System

POOL FROG® CYCLER

- The POOL FROG® Cyclor serves as a "water treatment center" and controls the flow of water through all FROG components.

POOL FROG® MINERAL RESERVOIR

- POOL FROG® will make you a believer in mineral pool care with water that feels incredibly soft so your skin stays silky smooth. Looking at your pool is like looking into a mirror because mineral water has a crystal clear shine.

- And POOL FROG's mineral technology reduces chlorine use up to 50%*. Simply replace every 6 months or one pool season and experience much less work, so you'll enjoy the look and feel of your pool.

*Compared to the minimum EPA requirement of 1.0 ppm for a standard stabilized swimming pool.

POOL FROG® BAC PAC

- A POOL FROG® Bac Pac is placed inside the POOL FROG® Mineral Reservoir, providing a low level chlorine support for approximately 2 weeks.
- POOL FROG® is the only mineral system with a pre-filled chlorine pac that meets the EPA requirements to lower previously approved safe chlorine levels by up to 50%*.

FROG BAM®

- POOL FROG® even offers an algae-protection guarantee when you use FROG BAM® with the POOL FROG® system.
- FROG BAM® is a 90-day algae preventative, that when distributed into the pool through the FROG® Cyclor, guarantees your pool won't experience any algae hassles for 90 days!
